

It's Alive: Reviving OER with Interactive Content

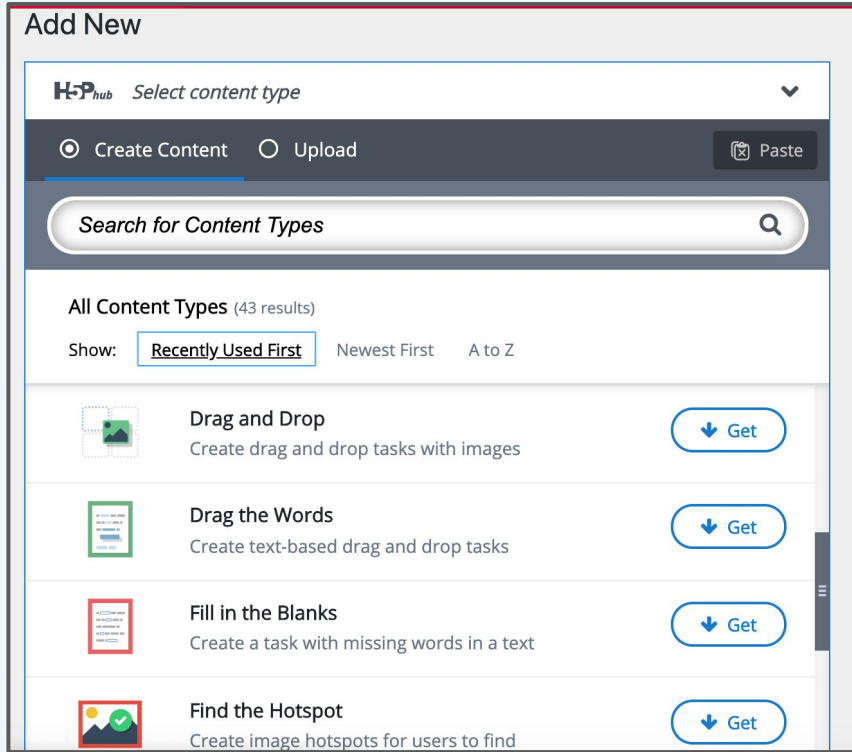

Discussion with Lara Tompkins, Christine Jones, Julie Masura, Mick Davis

Panelists for our Discussion

- ★ Lara Tompkins, College of DuPage
- ★ Julie Masara, University of Washington
- ★ Christine Jones, Glendale Community College
- ★ Mick Jones, Umpqua Community College

From book to courseware with H5P

The screenshot shows the 'Add New' interface in H5P. At the top, there's a header 'Add New' and a sub-header 'H5P hub Select content type'. Below this, there are two radio buttons: 'Create Content' (selected) and 'Upload', along with a 'Paste' button. A search bar contains the text 'Search for Content Types'. Underneath, it says 'All Content Types (43 results)'. There are three sorting options: 'Recently Used First' (selected), 'Newest First', and 'A to Z'. The main area displays four content type cards, each with a small icon, a title, a description, and a 'Get' button with a downward arrow.

Content Type	Description
Drag and Drop	Create drag and drop tasks with images
Drag the Words	Create text-based drag and drop tasks
Fill in the Blanks	Create a task with missing words in a text
Find the Hotspot	Create image hotspots for users to find

40+ ways to add interactive elements and assess learning.

- Multiple choice
- True/false
- Flashcards
- Speak the words
- Essay
- And more!
