Digital Preservation Network

- Non-commercial
- Distributed across multiple **memory** institutions, technologies and geographic regions
  - 3 of HathiTrust, APTrust, UCSD, Stanford, and TPN
- Active preservation – intermittent auditing
- Stewardship succession
- Active influential membership community, professionally aligned with memory institutions
- Up front payment – covers 20 years
- TDL members upload from the DuraCloud dashboard

- Technological Infrastructure
- Digital Preservation Policies
- Considerations
- Implementation

LIBRARIES
TEXAS A&M UNIVERSITY

Membership in DPN and TDL

- DPN
  - Charter member
  - 5 TB allocation per year
  - 20 year service term
  - Through TDL / TPN
- TDL
  - Regular sustaining member
  - $ allocation per year (S3 / Glacier / TACC)
  - DuraCloud™@TDL

Technological Infrastructure

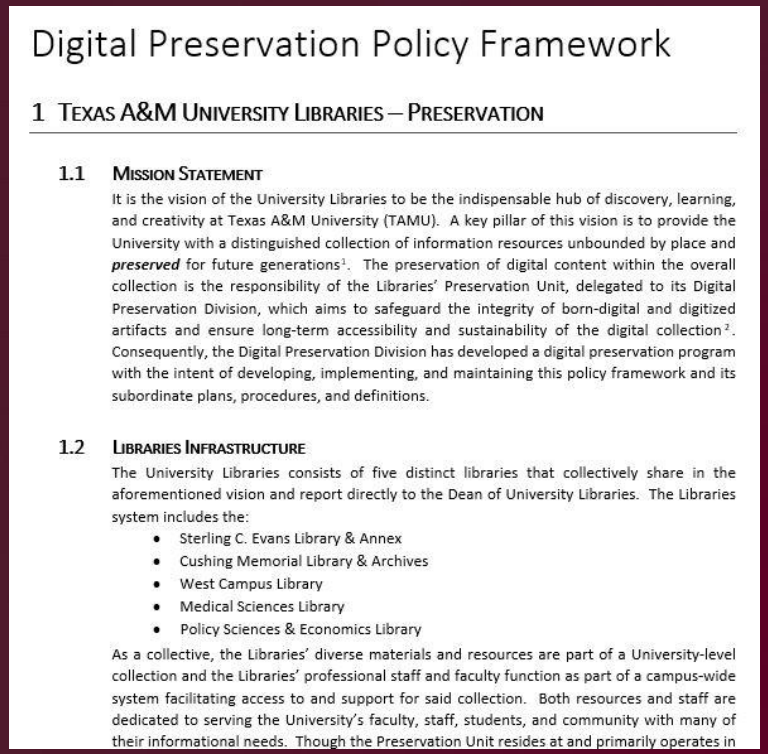
Archivematica → Local storage → DuraCloud™@TDL → **DPN**

→ Local storage → DuraCloud™@TDL → AWS/**Glacier**

→ Local storage

Digital Preservation Policy

- Standards / best practices
- Draft form
- Digital preservation tiers 1-3



Digital Preservation Policy Framework

1 Texas A&M University Libraries – Preservation

1.1 Mission Statement

It is the vision of the University Libraries to be the indispensable hub of discovery, learning, and creativity at Texas A&M University (TAMU). A key pillar of this vision is to provide the University with a distinguished collection of information resources unbounded by place and ***preserved*** for future generations[1]. The preservation of digital content within the overall collection is the responsibility of the Libraries' Preservation Unit, delegated to its Digital Preservation Division, which aims to safeguard the integrity of born-digital and digitized artifacts and ensure long-term accessibility and sustainability of the digital collection[2]. Consequently, the Digital Preservation Division has developed a digital preservation program with the intent of developing, implementing, and maintaining this policy framework and its subordinate plans, procedures, and definitions.

1.2 Libraries Infrastructure

The University Libraries consists of five distinct libraries that collectively share in the aforementioned vision and report directly to the Dean of University Libraries. The Libraries system includes the:

- Sterling C. Evans Library & Annex
- Cushing Memorial Library & Archives
- West Campus Library
- Medical Sciences Library
- Policy Sciences & Economics Library

As a collective, the Libraries' diverse materials and resources are part of a University-level collection and the Libraries' professional staff and faculty function as part of a campus-wide system facilitating access to and support for said collection. Both resources and staff are dedicated to serving the University's faculty, staff, students, and community with many of their informational needs. Though the Preservation Unit resides at and primarily operates in

LIBRARIES
TEXAS A&M UNIVERSITY

Considerations

- Service options / sustainability
- Content / DP tiers
- Space allocations
- Costs
- Size
- Formats

LIBRARIES
TEXAS A&M UNIVERSITY

Implementation

- Planning – T1 content first (DPN)
- Delays
  - Technological
  - Projects
  - Workflows
- Policy refinement
- Maintenance

TDL Digital Preservation Email List

tdl-digipres@utlists.utexas.edu

- Opt in:
  - Get updates about TDL Digital Preservation services
  - Share resources and digital preservation news
  - Find partners for digital preservation grants in Texas
  - Ask and answer digital preservation questions among your Texas peers
  - Showcase your local digital preservation projects

Update from the Dataverse Community Meeting

- Learned about Harvard's development roadmap, how issues are prioritized and how to best contribute UI improvement requests, code, and bugs
- Met the entire IQSS team in person!
- Met with several potential partners for future work:
  - Digital preservation
  - Bigger data capabilities
  - User statistics tracking and reporting
- Community notes, including mine from both main conference days
  - http://bit.ly/2sL8a6k

2017 TCDL

Post-Conference Update

- 164 Attendees
  - Arkansas, England, India, Indiana, Louisiana, Michigan, New Zealand, Texas
- 65% Proposal acceptance rate
  - 19 Full Presentations, 15 Lightning Round (24x7) Presentations
  - 6 Workshops
  - 5 Group Meetings
