Technical Operations: What's keeping us busy

- DPN Release Candidate Testing
 - “Node Summit” July 20-21
- Data Management Working Group Support
- Building the TDL DSpace 5 base
- Migration of UTL DSpace (“Texas ScholarWorks”)
- Review and revision of backups policy

Backup Policy

Our data will be stored in three places for all services except DuraCloud:

1. EBS volume – where the production data resides
2. Nightly Snapshots:
 - a. Daily snapshots kept for a month (30 snapshots)
 - b. Monthly snapshots kept for a year (12 snapshots)
3. Nightly S3 backups with versioning
(Keeps all changes for one year)

Technical Operations: What's next

- DSpace 5 Working Group
- Vireo 4 development
- Re-architecting of “repositories” service to streamline Shibboleth
- Continued support of Data Management work

Data Management Working Group

A screenshot of the Texas Digital Library Dataverse Test site. The header features the Texas Digital Library logo and name. Below it, a navigation bar includes "TDL Test Dataverse (Texas Digital Library)" and a link to "More about the Texas Digital Library". A metrics bar shows "0 Downloads". A search bar is present with a "Find" button and a link to "Advanced Search". On the left, there are filters for "Dataverses (14)", "Datasets (43)", and "Files (109)", along with "Publication Status" (Published (43), Draft (14), Unpublished (9)), "Dataverse Category" (Research Project (8), Researcher (3), Organization or Institution (2)), "Publication Date" (2015 (48)), and "Author Name" (Admin, TDL (11), Steans, Ryan (10), Lyon, Colleen (7), Thompson, Santi (4), Donald, Jeremy (3)). The main content area shows "1 to 10 of 57 Results" with a list of datasets. A modal window is open over the results, displaying a list of author names and their counts.
