TDL MEMBER FORUM

tdl.org
Agenda

Director’s Update: Member survey, TCDL, ScholComm Assessment

Service & Projects Update: Vireo, DSPSUG, Carpentries, Capstones

Community Updates: Collaborative Services, SCSFUG, Upcoming opportunities

Open Floor: Questions and discussion
Director’s Update
Kristi Park, TDL Executive Director
Thank you to members who took our survey!

One response per institution | 18 of 24 institutions responded

Report will be shared later this spring.
CALL FOR PROPOSALS (closed)
Nearly 80 proposals received!
Program announced by spring break

TDL AWARD NOMINATIONS
Deadline extended to February 24, 2020

Good Practice Principles for Scholarly Communication Services

COAR and SPARC have developed seven good practice principles to ensure that scholarly communication services are transparent, open, and support the aims of scholarship. These principles can be used by users to make decisions about which services they will contract with, and by service providers to improve their practices and governance.

**GOOD GOVERNANCE**

The service has strategic governance that allows community input on the direction of the service and operational governance with community representation and decision-making power.

**OPEN STANDARDS**

The service uses open APIs to enable interoperability, and adheres to open standards. Ideally, the platform is based on open-source software, but in cases where it is not, user-owned content is managed according to well-established, international standards.

**FAIR DATA COLLECTION**

Only data necessary for the service's provision are collected from users and the type of the data collected and how they are used is clearly and publicly articulated.

These principles are informed by Principles for Open Scholarly Infrastructure v1 by Bilder G, Lin J, Neylon C (2015) © 2019 COAR and SPARC, subject to a Creative Commons Attribution-4.0 International License.

**TRANSPARENT PRICING AND CONTRACTS**

The service's contract conditions and pricing are transparent and equitable, with no non-disclosure agreements included.

**EASY MIGRATION**

User-owned or generated content can be easily migrated to another platform or service upon termination of contract, without any additional fee from the service provider.

**SUCCESSION PLANNING**

If the service is a nonprofit, the organization's bylaws state the conditions and terms governing how the organization may be transferred or wound down. If the service is provided by a for-profit entity, the contract/subscription should not be assignable to another entity without the client's express permission.

**OPEN CONTENT**

Content, metadata, and usage data are immediately, openly, and freely available in machine-readable format via open standards, and using licenses (like CC0 or similar) which facilitate reuse.

Call for Comment: TDL's ScholComm Services self-assessment

Services & Projects Update
We will be reaching out to Vireo users to schedule summer migrations soon. All migrations should be complete before September 1, 2020.

Welcome to the DPSUG

TDL’s Digital Preservation Services User Group will be open to all TDL members on a quarterly basis.

Next open meeting is 1PM on April 7th. Courtney will send an email to the digital preservation list (tdl-digipres@utlists.utexas.edu) with info in March.

The South Central States Fedora Users Group (SCSFUG) works to boost, support, and educate the local Fedora user base, and promote the adoption of Fedora. The organization seeks to facilitate collaboration between member institutions in order to realize economies of scale in development projects and prevent duplication of efforts. We encourage the participation of everyone in the region both currently using Fedora or considering using Fedora for management of digital assets as a repository or archive.

SCSFUG 2020
