Easy online submission for students
Workflow for managing approvals and publishing to repository
Flexible embargoes
Student maintains copyright
Local institutional control
Introduction to Vireo

TXETDA Webinar Series 2019
October 15, 2019

Stephanie Larrison, Texas State University
Co-Chair, Vireo Users Group
Agenda

• Origins of Vireo
• What is it exactly?
• Features of Vireo
• Demonstration of student, faculty, and staff experience
• Questions
The Texas Digital Library consortium builds capacity for preserving, managing, and providing access to unique digital collections of enduring value.
Digital Preservation with DuraCloud@TDL
VIREO
Thesis & Dissertation publishing

- Easy *online submission* for students
- Workflow for managing approvals and *publishing* to repository
- Flexible *embargoes*
- Student maintains *copyright*
- *Local* institutional control
Vireo @ Texas Digital Library

- PRINCETON UNIVERSITY
- and more...
Vireo Users Group (VUG)

- Gathers and prioritizes constituent needs to guide the development of the Vireo Electronic Thesis and Dissertation Management System

- Provides avenues for the exchange of information about Vireo needs and utilization
What is Vireo?

Vireo is

a workflow tool to move theses, dissertations, and other scholarly works required for completing a degree from student, to reviewers, to a repository.

Vireo is not

an editing suite.

a repository. It is not for permanent storage.
Features of Vireo

• Integrates with active directory so students and staff login using university credentials.
• Email templates and rules make repetitive tasks more efficient.
• Multiple file export types – MARC21, XML, Excel, and ProQuest specific zip files.
• One click deposit into institutional repository.
• Unlimited customizable submission forms
• Unlimited use of controlled vocabularies
Features of Vireo (con’t)

• Committee chair may approve manuscripts submitted and embargo period selection.
• Repository deposit license embedded with student name and date of agreement.
• Administrative files can be attached by student and will not be exported into repository.
• Institution has complete control over what information to collect from student.
• Conforms to the most recent update of Descriptive Metadata guidelines for ETDs.
• ORCID integration
Demonstration

- Student submission
- Email sent to student
- Email sent to committee chair
- Committee chair approval of manuscript and embargo
- Staff view of submission
- Typical workflow ending with publication to repository.
Welcome to the Thesis & Dissertation Submission System

Once you have passed the final defense and satisfied the requirements of the committee, you are ready to submit your manuscript to the Thesis Office for review. This submission process is fully electronic, and is made through an online application developed and maintained by the Texas Digital Library, in conjunction with Texas A&M, Texas Tech, Baylor, and Texas State Universities.

To get started with your submission, click the link below. You will be asked to authenticate using your NetID:

Your help can make things better

Your feedback is very important to us; it allows us to continue to improve the system. Please feel free to notify us directly at dev@tdl.org if you have any suggestions to increase the usability or effectiveness of this application. You can talk to your Thesis Office regarding any issues that may arise during the submission process.
