The 8-Story Mary and John Gray Library at Lamar University – We closed 6 of the floors to the public during the COVID event.
The main entrance to the Gray Library at Lamar. During the COVID event, we had to deal with a major renovation project that blocked the main entrance.
This picture shows some of the steps we took to protect staff and library users. Note the tables placed in front of the service counter to extend distance. Returned items were placed on the red book truck and placed in quarantine for 3 days.
